

Product ID:
RGL3

Product Name:
Twin Leg Webbing Lanyard &
Shock Absorber

A twin leg lanyard with the same specifications as the RGL1 additionally allows movement between anchorage points by means of double clipping.

This system is generally used for tower climbing, steel erecting, scaffolding and maintenance on open structures. When used in conjunction with two girder slings (RGK26), the RGL3 can be used as a means of progression through suitable structures where no fixed lifeline or eyebolts are available. We use 32kN polyester webbing to manufacture this product which helps give the product a longer life. It is also treated with a water repellent coating which also extends the life of this product.

Accredited to:
EN 355:2002

Web material:
26mm water repellent polyester 32kN

Fittings:
RGK1 and any compatible EN 362 connectors
